Titusville, Florida 32780

The AN/PVS-22 A1 clip-on Weapon Sight adds the latest high performance night vision to the venerable AN/PVS-22. The catadioptric lens provides high performance light collection with an effective f/1.2 in a light weight design. For use with up to 10x magnification day optics, the PVS-22 has been in service on systems from the M4 to the M24, and now accepts both AA and CR123 single cell batteries in the improved A1 version.
